

# ACRYLENS COMPONENT WRAP STYLE DIFFUSERS

## Acrylens Component Diffusers

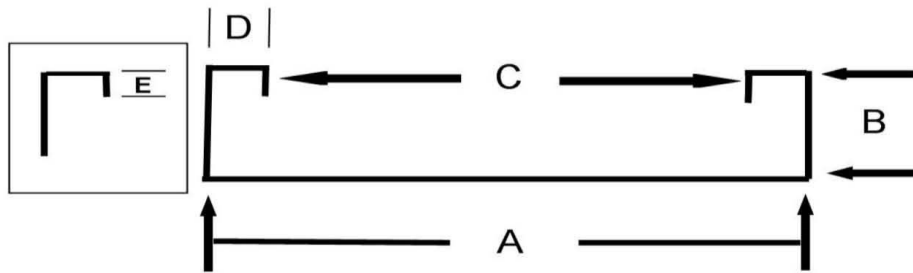

Acrylens including end cap

### DESCRIPTION

Acrylens® Diffusers are designed as a replacement part for extruded wrap diffusers. Acrylens will work on any fixture that the diffuser simply hangs on the fixture.

The three-piece design, two clear lineal prism acrylic side rails, attached to a P12 pattern clear prism acrylic bottom panel, looks much like original equipment and is available in large and small quantities. End caps are available as an option.
