

# RFK3 CONVERSION KIT

The RFK3 Aluminum Deep Cell Conversion Kit is an efficient and simple alternative for replacing old, worn or inefficient lighting diffusers with a contemporary aluminum parabolic. The RFK3 requires no rewiring or tools for installation. Once installed, it's virtually maintenance-free.

The RFK3 Kit is designed to be installed between an existing fluorescent troffer fixture in inverted tee bar ceiling systems.

2x2 Kit - 9- Cell (3x3)  
Part Number: RFK3-22-9  
23-3/4" x 23-3/4"

2x4 Kit - 18 Cell (3x6)  
Part Number: RFK3-24-18  
23-3/4" x 47-3/4"

2x4 Kit - 32 Cell (4x8)  
Part Number: RFK3-24-32  
23-3/4" x 47-3/4"

## MATERIALS

*Low Iridescent Semi  
Specular Aluminum*

*Note: Kit will raise the fixture @3" higher in the ceiling plenum. Check area above fixture to insure the plenum has clearance and there will be no hindrance from existing heating and air ducts, etc.*

*To eliminate glare directly below louver ask for information about our Parabolic overlay products*
