

Retrofit fixture  
without lifting,  
measuring or cutting.  
Patent Pending

### Elegant Design

The UARDIAC HT provides the look and feel of a deep RDI luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

that provide a low-brightness glow, with the majority of the light controlled through the center optical element.

### Efficient Solution

The contoured panels of the unit are high transmission acrylic

### Application

For use with most recessed lay-in fixtures in standard 15/16" grid ceiling systems.

## Specifications

### Door Frame

Features positive latching mechanism for easy re-lamping.

### Direct Optical Component

High reflectance optical engine delivers main beam focus through the revolutionary Dur-iFlex™ HT diffusing panel. With 93% transmission and 89% haze, the result is extraordinary control and efficiency.

### Reflector (optional not included)

High reflectance white reflector distributes light through both optical elements.

### Diffuser Surround

(2) Sloping high transmission acrylic diffuser panels manage contrast and generate soft, even, higher angle luminance.

### Luminaire Type

Fits most standard lay-in lensed or parabolic housings 2X2' and 2X4'.

### Lamps

1 or 2-lamp T8 or T5 fluorescent reflector kits available.
