Elegant Design

The UARDIAC PB integrates a traditional perforated metal basket with acrylic overlay into the UARDIAC family. The sloping acrylic side panels and unique lamp placement maintains the look and feel of a deep RDI luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

Efficient Solution

The contoured panels of the unit are high transmission acrylic that provide a low-brightness glow, while the perforated basket with acrylic overlay gently shields the lamp.

Application

For use with most recessed lay-in fixtures in standard 15/16" grid ceiling systems.

Specifications

Door Frame

Features positive latching mechanism for easy re-lamping.

Perforated Basket

Aluminum multi-radii precision perforated basket with acrylic overlay. Reverse hem provides virtually seamless transition to outer panel.

Reflector (optional not included)

High reflectance white reflector distributes light through both optical elements.

Diffuser Surround

(2) Sloping high transmission acrylic diffuser panels manage contrast and generate soft, even, higher angle luminance.

Luminaire Type

Fits most standard lay-in lensed or parabolic housings 2X2' and 2X4'.

Lamps

1 or 2-lamp T8 or T5 fluorescent reflector kits available.
