

Retrofit fixture without lifting, measuring or cutting. Patent Pending

### Elegant Design

Update the look, feel and efficiency of an existing parabolic luminaire with the simple and elegant UA conversion system. The A.L.P. Parabolic Louver family incorporates the latest materials and manufacturing process to ensure a crisp finish and long term durability.

increase fixture efficiency. Match with A.L.P.'s universal 7000 Series Reflector family for easy lamp relocation and removal. Changing the louver material can add needed brightness or additional glare control as necessary.

### Application

For use with most recessed deep parabolic lay-in fixtures in standard 15/16" grid ceiling systems.

### Efficient Solution

Reducing louver cell height and cell count is one of the fastest ways to

## Specifications

### Door Frame

Features positive latching mechanism for easy re-lamping.

### Reflector (optional not included)

High reflectance white reflector distributes light through both optical elements.

### Luminaire Type

Fits most standard lay-in lensed or parabolic housings 2'X2' and 2'X4'.

### Lamps

2-lamp T8 fluorescent reflector kits available.
